## \$15,755,000 DEPOSITED

J. P. MORGAN CONFIDENT THAT GOLD EXPORTS WILL BE STOPPED.

Better Outlook on 'Change Leads to Free Selling for Profits-Local Markets Unchanged.

At New York yesterday money on call was easier at 11/02 per cent.; last loan, 11/20;

Prime mercantile paper, 5@6 per cent. Sterling exchange was steady with actual business in bankers' bills at \$4.381/2@ 4.88% for demand, and \$4.87%@4.88 for sixty days; posted rates rates \$4.8874.881/2, and

\$4.89@4.891/6; commercial bills, \$4.87. Silver certificates, 69%c. At London bar

silver closed at 31%d per ounce. Total sales of stocks were 278,655 shares, including the following: American Tobacco, 14,800; Atchison, 4,400; American Sugar, 58,200; Burlington & Quincy, 25,400; Chicago Gas, 6,300; General Electric, 4,100; Louisville & Nashville, 11,000; Manhattan, 7,100; Missouri Pacific, 4,100; Northwestern, 3,300; Rock Island, 12,800; St. Paul, 52,200; Tennesee Coal and Iron, 5,100; Western Union, 6,300; Southern Pacific, 4,300; New Jersey

Central, 7,300, Silver certificates, \$80,000. diate financial outlook, owing to the effective measures that are being taken for while gratifying to the conservative element, failed to induce professional operators, both in New York and in London, to \$1.85@2; red cherries, 90c@\$1.10; lobsters, \$1.85@2; red cherries, 90c@\$1; strawberries, 90c@ forego the opportunity to realize profits on 'Change yesterday. The marketing of long stock imparted a rather fevrish tone to the ed strength. Covering by shorts was of course an important factor, but a fair ported, especially in railway shares. The local bulls were rather disconcerted over the appearance of London as a seller, but a cheerful sentiment eventually prevailed on the substantial deposits of gold in the subtreasury by the New York banks and encouraging advices as to the probable similar action of the financial institutions and banks in Boston, Chicago, Philadelphia and other large cities. The total deposits at the subtreasury the last two days foot up \$15,755,000, bringing the treasury gold reserve up to approximately \$102,564,528. No definite information as to the progress made by the committee of foreign banking houses in regard to the plan for shutting off gold exports was obtainable, but Chairman J. P. Morgan expressed emphatic confidence as to the success of arrangements that are now being perfected. This conclusion was foreshadowed by an easier market for foreign exchange and by reports that no gold would be shipped this week. Actual rates for sterling were reduced at the close to \$4.8814 for short and \$4.87% \$4.87% for long bills. Posted quotations early in the day were reduced 1/2 to 11/2 per cent. Another encouraging sign, was an active and advancng market for railway and miscellaneous

regular with a sagging tendency on the lower London cables, but soon rallied on purchases for both accounts and the reappearance of foreign buying orders. London, however, was at times a heavy seller of St. Paul. The general upward movement caried the list fractionally above Wednesday's closing figures. Rock Island and Sugar gained 14c and St. Paul, Chicago Gas and Manhattan a point. The market became chill before noon on a deelining movement of values due to renewed realizations. New Jersey Central was conwith a recovery to 9114. The stock mentioned again attracted attention late by its erratic course. It advanced to 92, reacted to 91 and rose to and closed at 93. About 2 o'clock extensive covering of shorts and moderate buying for long account took place resulting in improvements all along the line. The extreme gains over the low points extended to 3% in New Jersey Central. In the inactive specialties Mississippi Iron jumped 31/2 to 581/2. Pressure to secure profits around delivery hour, however, resulted in a sharp reaction. Manhattan broke 2% from the high level and the other eading shares I and 11/2 per cent. The closing was weak at irregular fractional

The stock market yesterday opened ir-

Railway and miscellaneous bonds were in good demand and in most issues adcently noted in some of the inactive issues was again evident, however. In this catesery. St. Paul, I. & D. extension firsts sold off 71/4; Omaha and St. Louis firsts trust receips 6; Western New York & Penn-sylvania general fives, and St. Paul and Omaha consols, 41/2 per cent. Louisville New Albany fives reacted 9 per cent. to 60, but rallied to 65. The principal advances are: Reading firsts preferred, 3; Reading seconds and thirds, 1: Duluth, South Shore & Atlantic fives, 2½; Union Pacific. Denevr & Gulf firsts, 1½; Third Avenue firsts, 1½; and Kansas & Texas seconds, San Antonio & Aranas Pass fours, and Iron Mountain, 14 per cent. The sales were \$1.127,000. Government bonds were less active, but

higher, the new fours, coupon, touching ificates were a shade easier on sales of

To the Editor of the Indianapolis Journal: If there ever was a time in the history of our country when those of us who conshould stop to reason it is surely now. The great desire of our Nation is to sell the products of her farms, factories and workshops. Grains, metals and minerals of all kinds are regulated in their price, not by local exchange value alone, but by the civilized world, when balanced upon the scales at the other end of which is the supply and demand. The farmer hauls his wheat to market and drives home with as much cash as his product will exchange for, conditioned upon the yield and consequent demand, not alone of his county and State, but of all wheat producing countries, Bleached Sheetings—Androscoggin, L, 6c; Berkeley, No. 60, 8c; Cabot, 6½c; Capital, 5c; Cumberland, 6c; Dwight Anchor, 7½c; Fruit of the Loom, 6½c; Farwell, 6c; Fitchville, 5½c; Full Width, 5½c; Gilt Edge, 4½c; Gilded Age, 4½c; Hill, 6½c; Hope, 5¾c; Linwood, 6¾c; Lonsdale, 6½c; Peabody, 4¾c; Pride of the West, 10¾c; Ten Strike, 5½c; Pepperell, 9-4, 15½c; Pepperell, 10-4, 17c; Androscoggin, 9-4, 16c; Androscoggin, 10-4, 18c. being equalized by the cost of transportation to a demanding market. The output of factory and mine must be governed by the same principle and equalized by the

Even silverites, in their extreme and irrational demands, cannot eliminate the fact that gold is the most stable mineral in price yet delved from the earth. This is not only true in our own, but in all medium of trade and the natural basis of international exchange of products. The seller, per force, is, to some extent, at the mercy of the purchaser. Products thrown upon the market to be sold can bring no more than the purchaser is willing to pay. He pays what his judgment dictates the demand will justify. This country has seen the time when paper-called money-must be compared with the daily reports of failing banks ere it was taken for any value There is now in operation but a very small per cent, of the silver mines of the country. It is not a fleeting fancy of an imaginative brain, but a plain fact, to say that within one year from the passage of a free-silver bill the output of the white metal in this country alone would be increased twenty times. Would that cut no figure in the purchasing power of it? Would not the producer and seller of wheat, to protect himself, have to be thoroughly posted upon the daily market price of silver, or, more likely, he would, if possible, demand to be paid in gold. The outlook for a corp crop in this country

this fall is magnificent. Is the farmer satisfled with it, and if not, why? Listen to his reply when you comment on his cornraising prospect. "O, yes; there is a good it and so much of last year's crop still left that it won't bring much." There is an overproduction of corn. The silver men say there is no market for their product an overproduction there, too. But why protect the silver mine owner and not the farmer? Let the government build its warehouses and granaries. Let it pass a law that one bushel of wheat and two bushels of corn shall be worth a dollar. Then, to every man storing one hundred bushels of wheat or two hundred bushels of corn of standard grade, issue a certificate and by the government stamp make it a so-called dollar. You say that is stamping money on paper, but do you not remember that every free-silver bill yet presented for action to any Congress has stipulated the issuing of silver certificates for bullion de-posited though not coined? Then, why not issue wheat and corn certificates? Putting an imaginative value on these products? Why, certainly it is no more out of proporion than the making of \$9.94 worth of silver into \$18.60 worth of dollars. Would not this help the farmer by raising the price of his products and be of more value to more people than coining silver free? Imagination can carry parallel cases until every farm and hillside, every loom and factory, every well and mine are under the wing of the so-called protection. Every laborer with the pay of a few days' hire would have a great collection of many-colored pieces of paper, covered with monograms and engravings befitting the industries of the country. But what of its purchasing power? Plenty of dollars in cir-culation, but no man the richer therefor, no one benefitted. If it takes muscle and brains to earn a dollar, sense and value should be combined to make it a convenlent and possible medium for interchange

of ideas and products. Protect our homes and national honor by advocating and voting for protection to home industries, for Blaine's magnificent conception-reciprocity and, greatest of them all, for a sound dollar worth a hundred cents the world over.

ALL MARKETS ADVANCED

CROP REPORTS BULLISH AND WALL-STREET NEWS IMPROVED.

ceptember Wheat Scored a Gain of 11-4c. While Provisions Were Stronger, Pork Going Up 17 1-2c.

CHICAGO, July 23.-Under the influence of unfavorable weather and crop reports and the improved tone of Wall street. wheat climbed steadily upwards to-day. September closed at an advance of 14c. Corn and oats were also benefited and closed 1/2c and 1/3c higher, respectively. Provisions advanced 74@174c.

Wheat ruled decidedly stronger. Everything in the way of news at the opening seemed to favor an advance. Early cables came stronger and the action of the New York bankers in coming to the assistance of the government had a decidedly strengthening effect. Rains were also reported throughout the wheat belt and reports of crop damage continued to come in. Country advices were to the effect that wheat in the shock was sprouting in many places. All outside markets were stronger and had great influence in advancing prices here. September opened about 4c higher, at 56% @57; advance irregularly to 58c and declined to 57% on realizing. During the the last hour the sharp advance at Si. Louis caused considerable covering and September advanced again to 581/2c, the closing being firm at 58@581/2c.

Oats ruled strong in sympathy with wheat, helped also by the continued bad crop reports. Shorts covered freely and there was good country buying. September opened 1/4/4/2 higher at 174/3c, advanced to 18c and closed steady at 17/3/6/18c. The provision market was somewhat demoralized early in the day. After a weak opening caused by the easier hog market, free liquidation caused a still further decline. At the low figure a good demand prevailed, local shorts and packers purchasing freely and prices advanced materially, the market closing strongly at about outside figures. September pork closed 17½c higher at \$6.20; September lard, .07½c higher at \$3.37½c; September ribs .10c higher at Escimated receipts for Friday-Wheat,
